Inside this Issue

1. Update on Federal Vaccine Mandate

November 2021

UPDATE ON FEDERAL VACCINE MANDATE FOR FEDERAL “CONTRACTORS”

As an update to our previous article¹ pertaining to the new rules from OSHA and CMS, we wish to update our readers that the deadline for complying with the vaccine mandate of Executive Order 14042² is **January 4, 2022**, not December 8, 2021. This update is based on very recent guidance from the federal government. The same deadline applies for the OSHA and CMS rules; but again, the OSHA rule only applies to employers with 100 or more employees that are *not* subject to 14042, and the CMS rule does not apply to EMS agencies. See the link to our previous article on this subject.

DISCLAIMER. The Firehouse Lawyer newsletter is published for educational purposes only. Nothing herein shall create an attorney-client relationship between Quinn & Quinn, P.S. and the reader. Those needing legal advice are urged to contact an attorney licensed to practice in their jurisdiction of residence.
